These details illustrate the adjustment to the student/faculty ratio when undergraduate students with secondary or second-listed plans in this academic unit are included in the ratio. In the illustration, secondary-plan headcounts are added to the primary major student FTE calculation in the following fractional amounts: 100% for the second plan in a dual degree program; 50% for the second plan in a double major; and 10% for a minor plan. These fractional additions represent the estimated typical faculty advising resources needed for secondary compared to primary majors. As for the metrics ratio, part-time headcounts are 33% of full-time headcounts.
