

MISSION STATEMENT OF SCHOOL OF ENGINEERING

The School of Engineering at the University of Connecticut is dedicated to excellence in education, research and professional service. Its mission is to be the primary source of engineering leadership and talent in the state and internationally, to ensure that Connecticut sustains its position as a leading high technology state, and to provide the intellectual and physical resources needed to grow as a center of new and evolving technological activity. To achieve this mission we must offer high-quality engineering education, discover new knowledge, and use our knowledge and experience to improve our state, the nation and the world.
